Thank you for sending this. I did not know about it. I saw this recommendation:

“Using commonly accepted scientific techniques, document and evaluate any evidence of clustered environmental illnesses among residents of BVHP and compare that data with similar communities near other Superfund sites. The DPH should identify what testing or monitoring can be done, with reliance on federal and state expertise and information.”

Has this happened?

I had to dig up this information today for another purpose

More weight of evidence that these allegations have been discussed for 15 years

There were two Civil Grand Jury Investigations into the Hunters Point Shipyard cleanup and redevelopment

The 2002 report is located here

[http://civilgrandjury.sfgov.org/2001\\_2002/Hunters\\_Point\\_Naval\\_Shipyard.pdf](http://civilgrandjury.sfgov.org/2001_2002/Hunters_Point_Naval_Shipyard.pdf)

The 2011 report is located here

[http://civilgrandjury.sfgov.org/2010\\_2011/Hunters\\_Point\\_Shipyard.pdf](http://civilgrandjury.sfgov.org/2010_2011/Hunters_Point_Shipyard.pdf)

I could not find the CCSF response online so I've attached a copy of the August 2002 CCSF response and the August 2011 response that I had in my files

Please note: I'll be on leave from November 21 through 23 AND December 19 through 21.
